

Key Investor Information

This document provides you with key investor information about the Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Castellain Income Fund (the “Fund”)

A sub-fund of Castellain ICAV

Class A GBP UK Reporting and Accumulation (ISIN: IE00BD5DLV27)

Objectives and Investment Policy

The investment objectives of the Fund are to preserve capital, earn a yield greater than inflation and achieve moderate capital growth over the long-term.

The Fund will aim to achieve this primarily through investing directly in ordinary shares, preference shares, convertible notes, debentures, bonds including convertible bonds (which may be fixed or floating rate, investment or below investment grade, and may be corporate or government issued debt) or warrants.

Where the Investment Manager considers it appropriate, the Fund may invest up to 100% of its assets in cash, cash equivalents and/or other money market instruments including treasury bills, bank deposits, deposit certificates and commercial paper.

The Fund will only employ derivative instruments for the purposes of hedging currency risk created by holding securities denominated in currencies other than the base currency.

The Fund will invest in equities, equity-related securities and debt securities which are listed or traded on Recognised Markets.

The objectives and policies of the Fund are not constrained by reference to any benchmark index and the Investment Manager has discretion in its choices of investments. The Fund is actively managed, and the FTSE 100 benchmark details* are provided for comparative purposes only.

You can buy and sell shares in the Fund twice a month.

Dividends will not be distributed on your Class A GBP Shares.

Please read the Prospectus for more information about the Fund. It is available at www.cascap.co.uk

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or a guarantee. The lowest category (i.e. category 1) does not mean a risk-free investment.

The Fund is in category 5 due to the rise and fall of its price over the last five years.

Investment in the Fund carries with it a degree of risk including, but not limited to, the risks described in the “Investment Risks” section of the Prospectus. These investment risks are not purported to be exhaustive and potential investors should review the Prospectus and the Supplement carefully and consult with

their professional advisers before making an application for Shares. There can be no assurance that the Fund will achieve its investment objective.

The following are additional risks which are materially relevant to the Fund which may not be adequately captured by the risk and reward indicator:

- The Fund invests in shares of companies and the value of these shares and the income from them can go down as well as up due to changes in the company, its industry, and the economy in which it operates.
- In certain market conditions some assets in the Fund may be less liquid and therefore more difficult to sell at their true value or in a timely manner.
- The Fund invests in debt securities where the issuer of a debt security may not be able to meet interest, principle or settlement payments or otherwise honour its obligations. This could cause losses to the Fund. There is no guarantee that an asset which provided security for a bond will maintain its value.

-----------------	------

The ongoing charges figure for the year ended 31 December 2019 is based on actual charges from 1 January 2019 to 31 December 2019. Prior to 4 April 2018 the Fund was domiciled in Jersey. The Fund's annual report for each financial year will include detail on the exact charges made. These may vary from year to year. The ongoing charges figure excludes portfolio transaction costs and performance fees.

No switching or conversion charges will apply.

More detailed charges information may be found in the "Fees and Expenses" section of the Supplement.

Past Performance

The Fund was originally launched in Jersey in December 2013. It migrated to Ireland on 4 April 2018 by way of a scheme of amalgamation and was authorised by the Central Bank of Ireland as a UCITS pursuant to the UCITS Regulations. The performance prior to 4 April 2018 was achieved while it was domiciled in Jersey before it was authorised as a UCITS. However, the investment policy, strategy and portfolio composition of the Fund were not altered as a consequence of the scheme of amalgamation, the Investment Manager of the Fund remained the same, and the board of the ICAV is satisfied that the past performance data is accurate.

The figures for this share class are based on total return (i.e. capital and income) in GBP.

Please be aware that past performance is not a reliable indicator of future results.
